
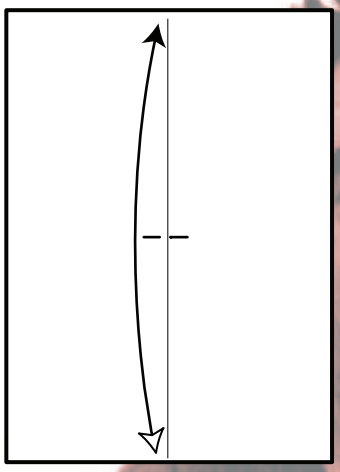
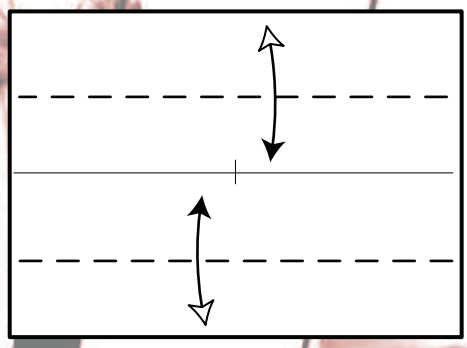
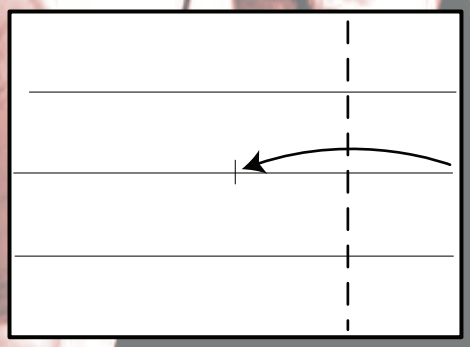
1. Start with a rectangle, white side up. Fold in half, crease and unfold.



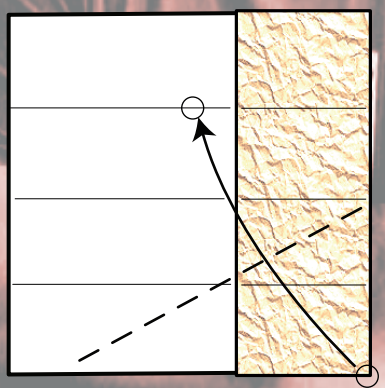
2. Gently mark the centre point. Rotate.



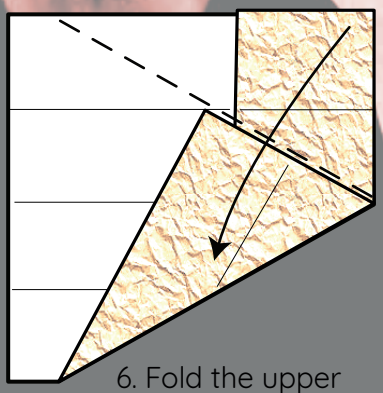
3. Fold upper and lower edges to the centre, crease and unfold.



4. Fold the right-hand edge to the centre mark.



5. Start at the right centre, fold the lower corner to lie on the circled crease.



6. Fold the upper right edge over the lower.

Veer Glider

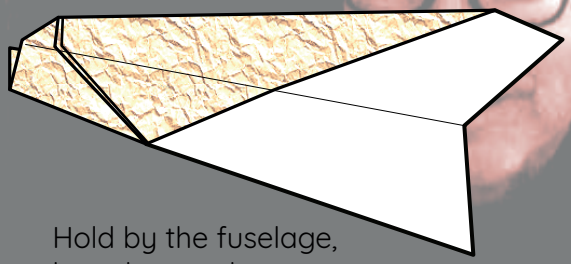
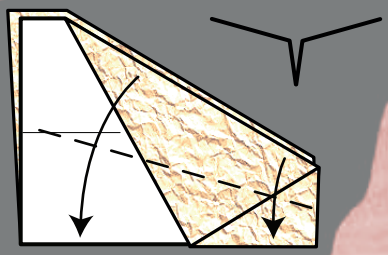
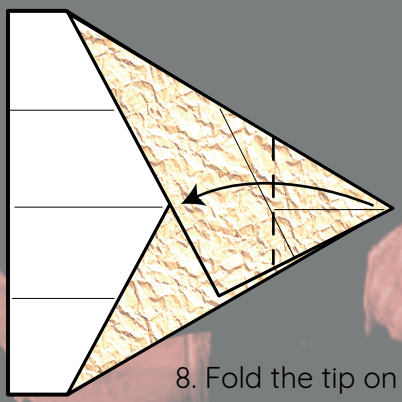
7. Reinforce the horizontal crease where shown.



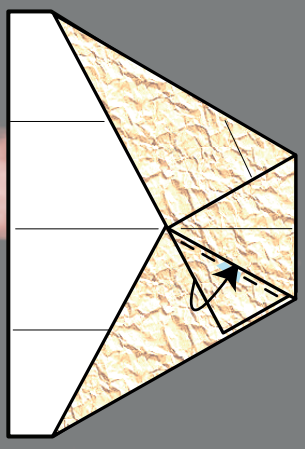
Hold by the fuselage, launch smartly forwards and slightly upwards. It will veer!



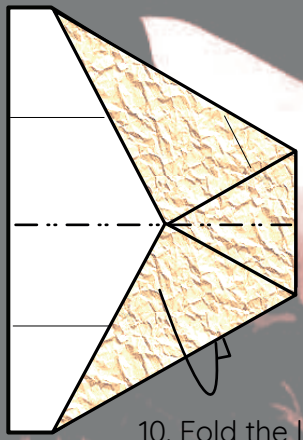
11. Fold the upper edge to the lower edge. Repeat underneath. Open wings to match the profile.



8. Fold the tip on the right to meet the centre.



9. Tuck the flap into the pocket and flatten the paper.



10. Fold the lower half underneath.
